

SPOTLIGHT from THE SCREEN SOCIETY COLLECTION

Some were meant to live in the shadows. Others were born for the light. In the early nights of Hollywood, there was always that moment — when the beam tightened, the world fell silent, and everything converged into a single, blinding focus: the spotlight. Whoever stood within it was no longer just part of the story.

They became the story.

But the light is unforgiving. It reveals everything — greatness, doubt, truth.

SPOTLIGHT is a tribute to that very moment. Bold, commanding, and layered with a depth that unfolds with every draw. A cigar for those who don't wait to be discovered — but step forward and claim the scene.

Because in the end, only one question remains: SPOTLIGHT — Are you ready to step into the light?
