THE ALIBI from THE SCREEN SOCIETY COLLECTION

Not every story was meant for the screen. In the golden nights of Hollywood, there were moments that were never filmed—decisions, encounters, secrets. When the cameras stopped rolling, the real game began. And for that, one thing was essential: An alibi.

THE ALIBI was more than an excuse. It was an unspoken understanding among those who knew how the world truly worked. A glance, a subtle smile – and the slow curl of cigar smoke, blurring everything that wasn't meant to be seen.

This cigar carries that very spirit. Elegant, layered, with a quiet intensity that never demands attention– yet lingers long after. Like a story never fully told. Because sometimes, what happens in the shadows is the only thing that truly matters.

THE ALIBI – for moments that can never be explained.
